

Plastics for Machine Shops

Engineering Materials to Fulfill Your Needs

Curbell Plastics has a broad inventory of plastic materials to meet the needs of our machine shop customers. We recognize that machine shops often work on tight timetables to keep their customers' processes up and running.

Our CNC panel saws allow us to offer tight tolerance cut-to-size pieces, which saves time on our customers' manufacturing floors. We provide quick delivery of even the most hard-to-find plastics, which allows our machine shop customers to meet quick turnaround delivery schedules.

APPLICATIONS:

- Bearings and bushings
- Electrical insulators
- Gears
- Manifolds
- Pulleys
- Rollers
- Sheaves
- Slide pads
- Sprockets
- Star wheels
- Valve components
- Wheels

MATERIALS:

- ABS
- Acetal
- CPVC
- Double sided tape
- ESD plastics for static control
- HDPE
- Kynar® PVDF
- Nylon
- PBT
- PEEK
- PET
- Polycarbonate
- Polypropylene
- Polysulfone
- Polyurethane
- PPS
- PTFE
- PVC
- TECATOR™ polyamide-imide
- UHMW
- ULTEM®
- Vespel® Polyimide Shapes

How plastics can benefit you:

- Stress relieved materials provide superior dimensional stability
- Cut-to-size service saves time on the manufacturing floor
- Centerless ground rod feeds well through automatic bar feeders
- Quick delivery allows for rapid turnaround of critical parts
