

Performance: BEST

WorkSafe® is a very popular, **extra-thick, high performance drainage mat** designed for worker comfort. The premium quality natural rubber compound is perfect around water, mild chemicals and detergent solutions. Slightly angled drainage holes and underside knobs allow water and debris to flow through and under the mat. The **3' x 5' size** is available in **Ends, Centers** and **Singles**. The Centers and Ends have interlocks to create long runners. Smaller mats without interlocks are available and can be combined with connector strips to form virtually any size.

In addition, we now customize WorkSafe® in the following versions:

Without borders

With GritWorks!®, without borders

With borders – this replaces customized Industrial WorkSafe®

Without borders

With GritWorks!®, with borders – this replaces customized Industrial GritWorks!®
