

Plastics for Printing and Graphics

How plastics can benefit you:

- Excellent dimensional stability for precise print registration
- Excellent lay flat characteristics
- Precision sheet cutting and film converting yields flat, square materials that are easy to feed through printing presses
- Quick delivery
- Wide range of colors and surface textures

Plastic Materials to Fulfill Your Needs

Curbell Plastics has an extensive inventory of plastic film and sheet materials for the printing and graphics market. We recognize that printers need visually appealing, competitively priced substrates that are easy to process by a variety of printing methods.

Curbell supplies materials for all types of printing including screen printing, digital printing, and offset lithography.

We use CNC panel saws to cut plastic sheet materials and precision slitting and sheeting technology to convert films to standard and custom sizes.

APPLICATIONS:

- Appliance controls
- Banners
- Dashboard graphics
- Die cut parts
- Digital graphics
- Flexible circuits
- Key pads
- Medical instrumentation graphics
- Membrane switches
- Nameplates
- Overlays
- Pennant strings
- Point-of-purchase displays
- Printed advertising
- Push-pull door graphics

MATERIALS:

- Acrylic
- Hard coated polycarbonate film
- Hard coated polyester film
- High impact polystyrene
- Mirror coated acrylic
- Polycarbonate film and sheet
- Polyester film
- Polyimide film
- Polypropylene
- Polystyrene
- Sintra® expanded PVC
- Transfer adhesives
- Vinyl

Put us to work – for you!™

Curbell Plastics has been supplying plastic sheet, rod, tube, films, adhesives, sealants, tapes, prototyping and tooling materials, and fabricated parts for over 65 years
