| Foam Board       | a solid polyethylene core; two layers of high-impact homogeneous sheet with closed-cell PVC in a wood or paper laminate. | • Low-density, lighter and recyclable)
|                  |                    | • Bright White facer is the brightest board of its kind
|                  | 1.6mm White / White | • The original, heavy-duty graphic arts board
|                  |                    | • Can be routed and returned to add dimension
|                  | 2mm White / White   | • Superior surface protects expensive digital and screen-printed graphics
|                  |                    | • Recommended for flat panel applications
|                  |                    | • Superior dent and scratch resistance
|                  |                    | • Lightweight yet rigid and durable
|                  |                    | • The trusted brand leader by which all others are measured
|                  |                    | • Custom colors available
|                  |                    | • Excellent delivery time on special cut orders up to 6.5m (21.6 ft) wide
|                  |                    | • Uniquely embossable
|                  |                    | • Broad selection of specialty products
|                  |                    | • Great reputation for performance
|                  |                    | • Cannot form
|                  |                    | • Combustible
|                  |                    | • Not recommended for forming
|                  |                    | • Recommended
|                  |                    | • Recommended
|                  |                    | • Recommended
|                  | 3.2mm White / White | • Water Based UV Coating
|                  |                    | • 48" x 96" • POP Displays
|                  |                    | • 3mm Brushed Copper / White
|                  |                    | • 3mm Dark Bronze / Fine Silver
|                  |                    | • 3mm Black/Black
|                  |                    | • 3mm White / Mill Finish (Aluminum)
|                  |                    | • Custom colors available
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
|                  |                    | • Routing
|                  |                    | • Painting
|                  |                    | • Die Cutting / Punching
|                  |                    | • Screen Printing
|                  |                    | • Embossing
|                  |                    | • Knife Cutting
|                  |                    | • Saw Cutting
|                  |                    | • Forming Curves
