

CELTEC DIGILITE

EXPANDED PVC

VALUE AND PERFORMANCE IN A LIGHT-DENSITY SIGNBOARD

Celtec® DigiLite® delivers economical design flexibility for sign makers and printers, backed by the same premium print quality as our Celtec® Expanded PVC. This light-density alternative comes through with on-point product formulation and superior UV performance, ensuring consistent aesthetics and durability.

Available in 3mm and 6mm thicknesses, DigiLite can be digital or screen printed, cut, painted or varnished. Ideally suited for light-duty practical applications, from retail point-of-purchase and displays, to tradeshow graphics and other applications that require a lower density substrate.

High Performance

Superior digital & screen printing ink adhesion; can be cut, varnished, stained or laminated.

Reduce Costs

Working with a lighter, more cost-effective, low-maintenance signboard alternative

Lighten the Load

Light-density materials reduce shipping costs & make for easier installation

Get 1-Stop Shopping

With the most complete range of extruded PVC sheet thicknesses, finishes & textures available from a single manufacturer

Reduce and Recycle

Eliminate landfill waste as DigiLite is 100% recyclable.

CELTEC DIGILITE

EXPANDED PVC

TOP APPLICATIONS:

- Point of Purchase Displays
- Signage
- Store Fixtures
- Exhibits & Kiosks
- Display Boards
- Interior Décor

KEY MATERIAL BENEFITS:

- Printable - Digital & Screen
- Light Weight
- Easy to Fabricate, Paint, or Laminate
- Superior Flame Retardant Properties
- 100% Recyclable

COMPETITIVE ADVANTAGES

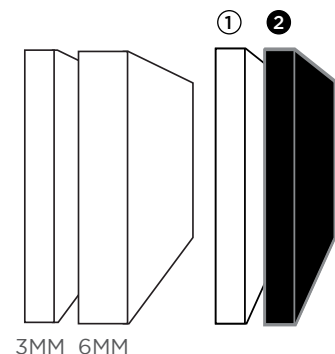

(vs. similar materials):

- Superior UV Performance
- Contains No Heavy Metals
- Light Density, Economical Alternative
- Short Lead Times for Custom Sizes
- Oversized Sheets
- All Materials Produced in the U.S.

COMPLIANCES:

- UL 94 V-0
- UL-1975
- FDA Incidental Food Contact
- RoHS Compliant
- REACH Compliant

COLORS	① WHITE	② BLACK
THICKNESSES	3MM (.12"), 6MM (.24")	3MM (.12"), 6MM (.24")
FINISH	SMOOTH	SMOOTH

Standard sheet size is 4' x 8'.
Custom sizes available upon request.
