**KYDEX® 430**

Proprietary ABS/PVC blend developed specifically for Medical device housing applications

---

**Introduction**

KYDEX® 430 is a proprietary ABS/PVC thermoplastic sheet that offers superior thermoformability, rigidity, breakage resistance, chemical resistance and fire retardancy.

**General Information**

KYDEX® 430 is available in a wide range of standard and custom colors, textures, and sheet sizes. It is Underwriters Laboratories, Inc® recognized for UL std 94 V-0, 5V and pass the ball pressure test per IEC 60695-10-2.

**Applications**

- Medical Equipment Housings
- Electrical Equipment Housings
- Miscellaneous Applications

**Flammability**

- UL94 V-0, 5-V @ 1mm

**Features**

- Good for deep or hard to form parts
- More rigid, parts will deform less when loaded - or can be down-gauged for weight-savings
- Meets highest standard for chemical resistance for thermoplastic materials
- Passes UL Std 94 V-0 and 5-V in all thicknesses and colors
- Uniform wall thickness and crisp detail
- Easy machining and fabricating using conventional methods and equipment
- Low moisture absorption - no drying needed prior to thermoforming
- Passes ball pressure test as per IEC 60695-10-2

**Environmental and Safety Considerations**

SEKISUI SPI is committed to ensuring that its products can be manufactured, transported, stored, used, disposed and recycled with an appropriate regard for safety, health and environmental protection. We support the safe handling of our products. Please contact our Technical Service department at 800.682.8758 for resources or visit our website: http://www.sekisui-spi.com. For Material Safety Data Sheets, please call 800.325.3133.
