Solutions for Safer Environments
Polycarbonate & PVC for Protective Barriers, Partitions & Wall Cladding

What’s in store?
SUPERMARKETS • STORES • MALLS

Retailers are beginning to reopen. To help do it safely, they need barriers to protect employees and customers, and versatile materials to make new instructional signage and displays.

Out on the town.
RESTAURANTS • BARS • FOOD SERVICE

Eateries are installing plastic dividers/sneeze guards and other protective equipment to prepare to reopen. Signs will be needed for new business hours and curbside pickup.
Is it 5:00 yet?
CUBICLES • RECEPTION DESKS • LOBBIES

Many offices are developing new social distancing protocols for getting back to higher in-house capacity, and some commercial businesses have already started.

All Aboard!
RAIL • BUS • RIDESHARE • PLANES

Public transit and air travel companies are essential to the world economy, so they need to quickly install sneeze guards, cabin dividers, and bacteria-resistant wall panels to help us get moving again.

To learn more, please call 800-999-9459.
Ka-Ching!
CASINOS • THEATERS • STADIUMS

Many entertainment companies have already begun stockpiling barriers and cladding products, and have hired architects to redesign their venue layouts to be more social-distancing-friendly.

Clean bill of health.
WAITING & EXAM ROOMS • SURGICAL SUITES

Healthcare facilities need to prevent germ transmission now more than ever, and our antimicrobial wall cladding system can help. In a 24-hour clinical trial, PALCLAD PRO HYG panels destroyed 99.99% of bacteria and molds on contact!
Great minds...

CLASSROOMS • DORMS • LIBRARIES

Schools and other learning centers are reshaping their interiors and pursuing all types of protective solutions in order to fully and safely reopen in the fall. They need materials for new signs, and custom barriers to help facilitate social distancing.

Meat and Potatoes.

MEAT PACKING • FOOD PROCESSING • FOOD PREP

Food processors and other manufacturers need to protect employees and adopt intensive disinfection procedures. PALCLEAR IND transparent PVC sheets are ideal for work station dividers, and DURACLAD® interlocking PVC panels are great for wall cladding and are designed to withstand frequent wash-downs.

Protective Barriers, Partitions & Wall Cladding
Poly carbonate and PVC Product Selection Guide

Sanitary surfacing solutions such as barriers and dividers, safety shields, antimicrobial cladding, sneeze guards, and other protective products are becoming increasingly necessary as state economies begin to reopen...which means versatile plastics are in high demand!

Architects, designers, contractors and facility managers across the country are working on both temporary and permanent solutions to help facilitate social distancing in the post-COVID-19 world. To do this, we need to create environments within businesses and public facilities where it's easy to maintain germ-free contact surfaces and other high-touch areas. We also need to rethink facility interiors and reshape them to allow for safe distancing between people.

The chart below allows you to compare Palram products according to their properties and attributes to select the perfect solution for your end-user’s requirements.

Check out our selection guide below or call 800.999.9459 for immediate assistance.
