

DIBOND® SPECIALTY FINISHES

The ultimate Aluminum Composite Material (ACM) for the display & signage markets

A REFLECTION OF QUALITY

The premium surfaces of DIBOND mirror finishes offer outstanding reflective properties similar to those of a conventional glass mirror, without the breakability of glass and at about half the weight. DIBOND mirrors create more light, space and transparency indoors and are a popular option for designing interior spaces such as shops, hotels, bars and other leisure facilities. The mirror surfaces can be both screen and digitally printed as well as laser engraved, making them a unique solution for advertising and signage. The high quality finish combined with the excellent processing properties of DIBOND make it an ideal solution for a wide range of design applications.

WHY CHOOSE DIBOND SPECIALTY FINISH MIRRORS?

- Specialized manufacturing process creates a clear, reflective mirror surface
- High quality effect is perfect for store design, high-end retail displays, and signage
- Mirror finishes provide a high quality aesthetic for interior design applications
- Can be screen or digitally printed, creating extremely unique results
- Can be laser engraved
- Mirror surface doesn't flake off during the cutting process
- Lightweight and durable - won't break during transportation or installation
- Less sensitive to pressure than acrylic or glass - no warping
- Excellent flatness and rigidity
- Approximately one half the weight of a conventional glass mirror
- Can be routed and returned to add dimension, or roll-formed to create curves
- Self-extinguishing; Class A fire rating (ASTM E-84)
- UL 879 certified for electric sign components

RECOMMENDED APPLICATIONS

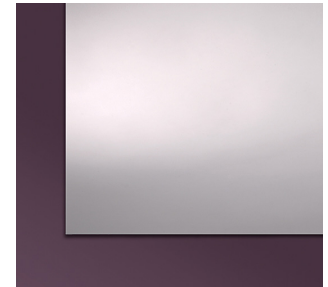

- Store & Interior Design
- Interior Signage & Displays
- Furniture Design
- Shop-Fitting
- High-End Retail Fixtures
- Shelving Components
- 3-Dimensional Displays
- Promotional Campaigns
- Framing

RECOMMENDED FABRICATION

- Mounting - cold mount techniques only
- Repositioning Vinyl
- Digital & Screen Printing
- Engraving
- Painting
- Saw Cutting
- Routing
- Die Cutting - punch press die set required; not a steel rule die

PRODUCT AVAILABILITY

Finish - Mirror (clear); Mirror Anthracite
Thickness - 3mm
Sheet Size - 49.2" x 98.4"
