

# Polystone® P (Polypropylene Homopolymer) White

Polystone® PP-H White sheet features a high strength to weight ratio, excellent chemical and corrosion resistance, and zero moisture absorption. The material is easily weldable and workable, making it ideal for applications in chemical, tank, semiconductor, and related components.

### Sheet Stock

- 48" x 96", 48" x 120", and 60" x 120"
- 0.25" - 1" thicknesses
- Color: white
- Protective masking: both sides

### Applications

- Chemical storage tanks
- Cleanroom
- Galvanic plants
- Semiconductor wet bench
- Fume hoods

### Product Advantages

- Excellent chemical and corrosion resistance
- Easy to fabricate, weld, and machine
- Exceptional structural strength and rigidity
- No moisture absorption
